Please take the time to send your membership and add any donation you wish. Pacific Textile Arts belongs to all of us and will become an important treasure in the Textile Arts community when we are able to build our three studios. In a time when jobs are disappearing, it can be particularly meaningful for people to add to their cottage industry skills and still be able to remain home with children or seniors. At the same time, the textile arts provide all of us with valuable creative outlets to feed our souls. All of us own PTA and it will be here for generations to come. A good investment in the future!!
